

Fruit fly in South Australia

research exercise

1. Use the online fruit fly map to check which outbreak area your school is in – red, yellow or green?

- Visit fruitfly.sa.gov.au/outbreak-map
- Type your school address or school name in the search field on the map
- Click on the map near the pin drop (a box will appear stating which area you are in)

answer

2. Use the online fruit fly map again to check which outbreak area you live in – red, yellow or green?

- Type your home address in the search field on the map
- Click on the map near the pin drop to find out which outbreak area you live in

answer

3. Find out what the restrictions are for you when you are at school. Can you move fruit and vegetables that are at risk from fruit fly from your school?

- Use this link to find the right outbreak area (red, yellow or green) for your school fruitfly.sa.gov.au/outbreak-restrictions

answer

Mediterranean Fruit Fly
Ceratitis capitata

Queensland Fruit Fly
Bactrocera tryoni

4. Find out what the restrictions are for you when you are at home. Can you move fruit and vegetables that are at risk from fruit fly from your home, such as packing them in your lunchbox for school? If you can take fruit to school, can you bring it home again if you don't eat it at school?

- Use this link and select the right outbreak area map (red, yellow or green) for your school fruitfly.sa.gov.au/outbreak-restrictions

answer
